Projects

Couch Tourist

<https://github.com/alwongg/Couch-Tourist>

- Created an app that allows users to tour the world without leaving the comforts of their couch
- Ability to download images from Flickr based on pin location and saves them in Core Data

On The Map

<https://github.com/alwongg/On-The-Map-App>

- Created an app that posts user-generated location information and displays custom messages
- Built an authentication page and manages network requests through Udacity Parse API

MemeMe 2.0

<https://github.com/alwongg/MemeMe-2.0-App>

- Created an app that takes pictures and overlays text to make memes out of friends, family, or pets
- Implemented the ability to share with others and view past memes in a table or collection view

Experience

Music Teacher – Missouri City, TX

Oct 2015 – Apr 2017

- Instructed students in piano theory and performance individually and in groups
- Met with parents to discuss children's progress and determined priorities for their improvements.

Education

- | | |
|---|----------------------------|
| • Udacity – iOS Developer Nanodegree | Jan 2017 – Aug 2017 |
| • University of Waterloo - Bachelor of Science | Sep 2012 – Oct 2015 |
